

I disagree in principle with science's accepted principles on even the very basic issues and that fact is undeniably true. I also propose new principles and what you read is very new to everyone alike. Yet, Scientists have preset conditions they prescribe to information and they can't break their mould. As my views are new the Scientists only use information stored by culture and if they can't bring the information to mind by recognising they fail to understand new science concepts. Where the Scientists fail to see my arguments and the obvious correctness thereof they also fail to see that I found that the ordinary persons with a scholastic physics background cope with the difficult explaining much better than does Scientists. The ordinary person do not have a culture to defend and a work ethic that might be compromised whereas those in Academic office have a lot of Academic pride and years of study material they will lose. Therefore, the purpose with which I wrote this book is to get around the network by which Scientists strangle any form of science that does not fit their views or match their liking. If what anyone says does not stroke with what the Physicist says control physics and agree with "Mainstream Science" or echo their thinking, they just smother all intellectual publication on the grounds that it is not fitting their profile on science. I disagree most strongly but I do also supply proof thereof. Still Mainstream Science blocks the publishing of my views on science that does not compliment their views. If you believe science is more accurate than God don't read further and live out your fantasy. They instated this culture concept of science that science only works with the truth and believe this as a religiosity. Should you believe that then stop reading or get your tranquillising anti depressants next to you with a large bowl of water. "Mainstream Science" hides behind maths. I need help to fight their fraud. I need you to help me fight them. However this does not have to be but I am forced to be explicit about science and how science presents the truth. I have to recondition the mindset of persons. To everybody science is the epitome of truth. You may argue about the Bible or about religion or even whether a God exist or not but nobody dares even to consider if Newton is accurate. You may challenge everything in religion or question all about what is true in the Bible but you challenge Newton and you are kicked from University campus. When I questioned Newton and insisted they prove what Newton said and I refused to learn Newton off by heart by repeating what Newton said like a programmed slave I was failed. When I failed I was kicked out and was refused permission to attend more classes. I had a choice and this is how it was put to me, "you accept Newton and everything about Newton or you go home as an unfit person that is unable to understand Newton". Well since then I started to make a study of Newton and Newtonian science and, boy, did I uncover a trove of apprehensible shit that stinks of corruption and all the corruption goes back 300 years. Science is blamed for many different conspiracies but those all are vague and argumentative. We all know there is something wrong within what science is and what science says. Someone is somehow hiding something somewhere and no one puts a finger on the button. You are about to read the mother of all the conspiracies in science, which is why science applies mind control by processing thought control. I prove that there is a mother conspiracy in place. Every conspiracy ever linked to science is in place to protect this conspiracy from becoming known. The mother conspiracy is in place so that students are brainwashed by instigating mind control on students through enforcing accepting dogma. I prove what I accuse science of. I introduce a new cosmic vision with singularity controlling the Universe that forms every known space.

Grimes argues that conspiracies in scientific domains are to cover up vaccine information, examination by other scientists would fatally. Wilkinson College of Arts, Humanities, and Social Sciences The most prevalent conspiracy theory in the United States is that the Approximately half of Americans also believe in a cover up regarding the assassination of John F. Kennedy. The government is concealing what they know about.
