

You want to spend time reading with your children, teaching them about the wonderful things in nature. The problem is, there aren't many quality books out there for kids and parents to read together. I know how you feel; it's hard to find an animal book for your child that not only shows them great pictures, but teaches them about each one. Many others have told me that they have felt the same way that you and I do. That's why I decided to write the kinds of books I wished I could find to share with my students and grandchildren. Inside every one of my books, you'll find interesting facts, awesome pictures and fun activities. I'm truly grateful that you found this book and I hope that you and your child enjoy every moment you spend together learning.
