

A coyote is a very smart kind of wild dog. A coyote does not want to live the way a tame dog does, with someone to feed him and give him a home. He wants to dig his own den, hunt his own supper, staying wild and very free. Young and older people alike, whether they have seen coyotes or not, will be delighted with this animal who can sing bass and tenor at the same time, who builds his house with a chimney for ventilation, and who cooks food for his very young babies. In this natural science picture book, Wilfrid Bronson writes of the almost human habits of this freedom-loving American animal with the same simplicity and authenticity which mark all his work. Fully illustrated with accurate and humorous drawings, this book is part of the Wilfrid Swancourt Bronson Legacy Series from Sunstone Press.
