

This volume contains the invited lectures and a selection of the contributed papers and posters of the workshop on Fluctuations and Sensitivity in Nonequilibrium Systems, held at the Joe C. Thompson Conference Center, University of Texas at Austin, March 12-16, 1984. The workshop dealt with stochastic phenomena and sensitivity in nonequilibrium systems from a macroscopic point of view. During the last few years it has been realized that the role of fluctuations is far less trivial in systems far from equilibrium than in systems under thermodynamic equilibrium conditions. It was found that random fluctuations often are a determining factor for the state adopted by macroscopic systems and cannot be regarded as secondary effects of minor importance. Further, nonequilibrium systems are also very sensitive to small systematic changes in their environment. The main aims of the workshop were: i) to provide scientists with an occasion to acquaint themselves with the state of the art in fluctuation theory and sensitivity analysis; ii) to provide a forum for the presentation of recent advances in theory and experiment; iii) to bring together theoreticians and experimentalists in order to delineate the major open problems and to formulate strategies to tackle these problems. The organizing committee of the workshop consisted of W. Horsthemke, O. K. Kondepudi, G. Dewel, G. Nicolis, I. Prigogine and L. Reichl.

Our Future Life And Lives, The Bible Is a Girls Best Friend: Experiencing a Fresh Encounter with Gods Word, Hermeneutics and Music Criticism, The Womens Awakening in Egypt: Culture, Society, and the Press, Apres la Mort (French Edition), Medical record Volume 52, The Customer-Driven Organization: Employing the Kano Model, James Clarke White 1853-1916. The First American Professor of Dermatology.
