

I have had times in my life where I have had no money. I have had many people mad at me because I was unable to pay them on time. Those were unhappy times with bad memories and I never want them back! I have experienced many years of abundance as the Lord began to bless our ministry and I can say these times of plenty have been the happiest years of my life. In this book, I want to share a few vital secrets with you so that your financial situation can turn around. Many follow secular business principles, but when financial cycles ebb and flow many of these secular businesses go bankrupt. That is the difference between Godly and worldly blessings, because worldly blessings are not cushioned against inflation and financial cycles of ups and downs that the markets experience. During the financial turmoil of 2008/2009, our business and ministry interests flourished and prospered. It reminds me of Isaac who sowed in famine and prospered. Why is this book so important? We are living in the last days and the financial situation is deteriorating by the day. Nations are bankrupt. Banks are running out of money. There is financial chaos worldwide which means that individuals and business people will not be able to escape the financial chaos which is being experienced everywhere. We do not have to participate in these financial troubles if we make God our source. God uses money as the vehicle to fulfill His purposes on the earth and He does that through people. Therefore, if money is important to God, it must become important to us as well. But we must love God and not love money. Money must not be accumulated, it must flow. That is why money is referred to as currency, which means it must flow. God will place it in your hands so that it can be used to fulfill God's™ plan for your life. God bless you as you apply these life-giving principles and experience a supernatural turnaround in your personal life and ministry.
