

The D600 gives you unwavering exceptional performance, delivering consistently beautiful images utilizing its 2,016 pixel RGB sensor to evaluate every scene, taking in to account brightness, contrast, distance, and scene colors, all within the time it takes to press the shutter-release button. Flawless metering and onboard intelligence provides consistently accurate exposures, auto white balance, i-TTL flash, and subject-tracking auto focus performance. This camera gives the users the ability to record Full HD at varying frame rates and resolutions including 1080p video at 30, 25, or 24p and 720p video at 60, 50, and 30 p, and allows recording at high quality for 20 minutes or just less than 30 minutes for normal quality. In addition users have the ability to capture audio with the onboard microphone (mono) or record stereo audio externally using mic input. Audio can be monitored via headphone jack and levels displayed on the LCD. Playback of HD video and images through the HDMI terminal, and the HDMI connection adds the ability to transfer uncompressed video, which can be routed to a digital recorder. Optional WU-1b Wireless Adapter allows users to connect wirelessly to the camera and has a range of up to 50 feet (15m) to fire the shutter remotely. A companion Wireless Mobile Adapter Utility application for Android and a further app for iPhone and iPad are both available from camera launch.
