

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners “physicians and other healthcare professionals” with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Ophthalmology is specifically designed to provide the participant with up-to-date and accurate information on diagnosis and management in the major subspecialty areas of practice, including, but not limited to: Allergy, Cataract surgery and intraocular lenses, Corneal and external disease, Extraocular-muscle dysfunction, Glaucoma, Neuro-ophthalmology, Orbital disease, Ocular oncology, Pediatric ophthalmology and strabismus, Refractive surgery, Retinal and macular disease, Systemic and autoimmune disorders. The goal of this program is to improve the medical and surgical treatment of glaucoma. After hearing and assimilating this program, the clinician will be better able to:

- 1: Individualize therapy by taking into account side effects, efficacy, and the potential for noncompliance in each patient.
- 2: Consider diurnal fluctuation when selecting appropriate target goals for intraocular pressure (IOP).
- 3: Optimize the choice of surgical treatments for patients with glaucoma.
- 4: Minimize complications associated with glaucoma surgery to obtain the best possible outcomes.
- 5: Choose appropriate candidates for new techniques in glaucoma surgery.

The Great American Bathroom Book, Shakespeare: Summaries of Shakespeares Best-Known Works, Ottoman Inspired Cross Stitch Motifs: 75 New Models (Cross Stitch Motif Series), Telling Womens Lives: Narrative Inquiries in the History of Womens Education (Feminist Educational Thinking), The Supposed Visit of St. Paul to Britain.
