

Almost everyone loves polar bears. Their white coats and beautiful faces make them a favorite of both children and adults. However, polar bears are amazing creatures for many reasons. They are the world's largest land predator and ingenious hunters. Polar bears are also great swimmers, sometimes swimming many miles to reach their favorite hunting grounds on Arctic sea-ice. The bears do all of this in one of the most difficult environments in the world, they live in the Arctic. Unfortunately, the bears' life may be getting even harder because of humans. If you love polar bears this book will give you the information you need to understand what the future may hold for these amazing creatures.
