

Desperate to understand her place in the world, teenage musical prodigy Lark Turehu unwittingly follows her handsome music teacher Noel Stone into the parallel realm of Delfaerune. With her extreme height and long, silver-white hair, she already considers herself a freak in her Queenstown, New Zealand university, so how can she possibly deal with the added burden of her role as the Noble Faes leading musical spell caster? Not only must she retrieve and master the Kura Ocarina to earn the title of the realms Maestra, but the faefolk expect her to use the ancient wind instrument to save the human race from extinction at the hands of the Dark Fae. \* \* \* \* \* In Delfaerune, you'll discover a lush world where music joins with Earth energy to conjure balance among all creatures, extinct and mythical creatures talk and live peacefully, and the Dark Fae pattern themselves after burned-out human rock stars.
