

A former lay minister and praise and worship leader describes her journey into Christianity and her rise to leadership within the church, only to discover that the church was in fact, a cult. The author gives a troubling and emotional look into the darker side of charismatic fundamentalist Christianity. Her story chronicles her inner turmoil leading up to a spiritual crisis with life changing decisions. With hard-won wisdom and compassion, she wraps up each chapter with insights and life lessons to help the reader identify spiritual abuse they may be experiencing and to encourage them in their journey to find healing and wholeness. This is a one-of-a-kind self-help memoir on a subject that is considered taboo in the religious world.
