

Why do some people seem to have the Midas Touch while others seem to self-destruct financially? There are some specific reasons. In researching successful people from the past and the present, Dr. Tomas McFie has discovered that financially successful people have three common traits: a strong desire to win, a solid realization that they are determined to win, and a spirited discipline which affords them to win. Anybody who adeptly appreciates these three traits and appropriately applies them becomes successful. There is really only one drawback and that is this: Most people tend to do what everybody else is doing. Therefore, these traits which successful people diligently discipline themselves to apply elude most people. Winning Your Financial G.A.M.E. is about success and significance, both of which are noble goals. Understanding how to create a concise G.A.M.E. (Guaranteed, Available, Manageable, Equity) plan will put you on track to winning YFG. You will never be guilt-ridden or shame-faced believing that your wealth is acquired at the expense of other people when following the course McFie outlines here. Instead, you will become an inspiration, encouraging and enabling others because of the success and significance you are achieving in YFG. Using powerful historical examples of men and women who are in the financial Hall of Fame, this audiobook contains the financial moves you need to be familiar with in order to win YFG.
